► See page 2 to record influenza, pneumococcal, zoster, Hib, and other vaccines (e.g., travel vaccines).

How to Complete this Record

- With the exception of hepatitis B vaccines, record the generic abbreviation (e.g., Tdap) or the trade name for each vaccine; for hepatitis B vaccines, record the trade name (see table at right).
- Record the funding source of the vaccine given as either F (federal), S (state), or P (private).
- Record the route by which the vaccine was given as either intramuscular (IM), subcutaneous (Subcut [SC]), intradermal (ID), intranasal (NAS), or oral (PO) and also the site where it was administered as either RA (right arm), LA (left arm), RT (right thigh), or LT (left thigh).
- Record the publication date of each VIS as well as the date the VIS is given to the patient.
- To meet the space constraints of this form and federal requirements for documentation, a healthcare setting may want to keep a reference list of vaccinators that includes their initials and titles.
- For combination vaccines, fill in a row for each antigen in the combination.

Abbreviation	Trade Name and Manufacturer
Tdap	Adacel (Sanofi Pasteur); Boostrix (GlaxoSmithKline [GSK])
Td	Decavac, Tenivac (Sanofi Pasteur); generic Td (MA Biological Labs)

Did you bring your immunization record card with you?

yes ☐ no ☒

It is important for you to have a personal record of your vaccinations. If you don't have a personal record, ask your healthcare provider to give you one. Keep this record in a safe place and bring it with you every time you seek medical care. Make sure your healthcare provider records all your vaccinations on it.
