Date: 03/19/20

PATIENT: RENEGAR, CARLA **DOB:** 12/09/1949 **Gender:** **MRN:** 1175 **AGE:** 70 Years

VISIT TYPE: Office Visit New

CHIEF COMPLAINT: Needing immunizations for a trip to Nicaragua.

Symptoms: Most recent Tdap was in 2014. Has had the shingles vaccine. And MMR is not indicated as pt was born in 1949 and has had the diseases.

ASSESSMENT:

Z23 - Encounter for immunization (PRIMARY)

PLAN:

Pt declined a prescription for an anti-malarial at this time as they will be on the West-side of the country and there is decreased mosquito activity.
