

COVID-19 Test Results

Patient's Name: Miranda A Moten	Date: 8/13/2020
Patient's DOB: 8/23/2002	Visit ID: 727142

To Whom it May Concern:

The above patient was tested at a MainStreet clinic for the COVID-19 antigen (not antibody). The patient's results for this test were **NEGATIVE**.

A negative antigen test indicates that our test did not detect the COVID-19 antigen which would indicate an active infection. As with all COVID-19 infection tests, it is possible that the patient is in the very early stages of an infection and the COVID-19 antigen is not yet at levels detectable by our test.

Sincerely,

Your MainStreet Family
