For questions contact Anatomic Pathology Client Services at 866-709-0772 and reference DEPT ID: QC217438724

EXPLANATORY NOTE: The Pap is a screening test for cervical cancer. It is not a diagnostic test and is subject to false negative and false positive results. It is most reliable when a satisfactory sample, regularly obtained, is submitted with relevant clinical findings and history, and when the Pap result is evaluated along with historic and current clinical information.
