

PROCEDURE: Partial wedge resection of right big toenail.

Risks and benefits explained. Informed consent signed.

Cleansed right great toe with alcohol wipes. Used 0.5ml of 1% plain lidocaine for numbing. Once area was numbed, a partial wedge resection was performed of the lateral right great toe nail using curved toe nail clippers. The ingrown nail was removed with hemostats. Site was cleansed with wound cleanser. Mupirocin ointment and bandaid were applied. No complications noted. Procedure was tolerated well. Wound care instructions given. All questions were answered.
