PATIENT: BURKETT, KATHRYN **DOB:** 12/14/1973 **Gender:** FEMALE **MRN:** 1792 **AGE:** 47 Years

VISIT TYPE: Office Visit Established

CHIEF COMPLAINT: Pfizer vaccine

HISTORY OF PRESENT ILLNESS: Ms. Burkett presents today for a Pfizer Covid vaccine. While filling out paperwork she informed our office that she is currently going through Chemo. She called her oncologist, Dr. Huh at UAB and discuss receiving the vaccine while we were in the room with her. The nurse reported no contraindications to receiving the vaccine.

ASSESSMENT:

Z23 - Encounter for immunization (PRIMARY)

PLAN:

The vaccination was administered into her (L) arm (has port on (R) side.) She tolerated well. After the vaccine while waiting, she reported heavy breathing. She then reported she felt very anxious and believes that is contributing to it. She denies any itching or allergic reactions to another other vaccinations in the past. She was instructed to wait 30 minutes before leaving and has been compliant throughout. Prior to discharge, she reports she felt much better and states it was her anxiety.
