Sutures removed to all 3 lacerations by Miranda Bicknell, RN. Early signs of infection present to each site to include localized swelling and erythema around the suture lines. Rx for mupirocin cream. She was educated on dog bites and the high probability of infection from them and the importance of taking her antibiotics as prescribed and completing the full course to prevent infection and to prevent antibiotic resistance in the future. Follow up as needed. She verbalized understanding.

mupirocin 2 % topical ointment
