CC/HPI

Chief Complaint In for evaluation of depression

History of Present Illness Narrative

Narrative Patient crying and says she "just can't take it anymore". She states her husband of > 20 years transports him to the appointments. Also, He has been in and out of recovery programs and has always relapsed. He is currently drinking. She states she is the sole breadwinner and takes care of the home. She gets very little support from him or others. She is very stressed. and arguments are escalating. She is agreeable to taking an antidepressant and seeing a counselor. She states her regular MD (Dr. Cox) maintains regular health status.

Medication Orders

Zoloft TABLET, FILM COATED ORAL 50mg/1 0049-4900

*A revision date is printed at the end of each Vaccine Information Statement (VIS). Record this date in this column. According to federal law, VISs must be given to patients before administering each dose of Td, MMR, varicella, or hepatitis B vaccine.

†Meningococcal vaccine is recommended for certain high-risk patients. Some high-risk patients may need a one-time revaccination with pneumococcal polysaccharide vaccine (PPV23).
