Chief Complaint

Eval for headaches. nausea . light , noise and smell sensitivity

History of Present Illness

This 21-year-old Caucasian female started having migraines at age 19. She describes retro-ocular throbbing headaches with nausea photophobia phonophobia. She has difficulty concentrating during the headache.

Stress let down periods bright sunshine are triggers. She sustained a neck injury as a small child and has some persistent neck pain. Her mother and sister have migraines. She has 20+ headache days per month lasting longer than 4 hours. She has never been on a preventative. She exercises regularly but may not be as well hydrated is would be optimal she is a student and education at Alban University he takes Aleve when she has migraine without significant benefit. Ibuprofen has not been helpful for her. She is triptan naïve.

Review of Systems

13 point review of system is scan in the chart discussed with the patient. She has seasonal allergies IBS with constipation. She has good sleeping habits.

Physical Exam

Vitals and Measurements

HR(Monitored): 95 bpm(07/25/19 10:49:00) BP: 107/69 mmHg(07/25/19 10:49:00) SPO2: 95 %(07/25/19 10:49:00)

Height: 69 in(07/25/19 10:49:00) Weight: 62.7 kg(07/25/19 10:49:00) BMI: 20.4 m2(07/25/19 10:49:00)

This is a pleasant healthy-appearing young female
Mentations within normal limits affect is appropriate
Gait and station are unremarkable
Cranial nerves II through XII unremarkable
Endoscopic exam is unremarkable
There are no bruits
Deep tendon reflexes unremarkable
He has no ataxia

Assessment/Plan

Chronic migraine without aura

We will start her on Topamax with usual admonitions. As Motrin and naproxen have not been helpful for her prescribed Camby a. We will use rizatriptan as needed. She will keep a headache calendar and I'll like to see her in 3 months of sooner if need be.
