MEDICAL PROBLEMS:**MODE OF ARRIVAL:**

The patient arrived by walk in. Patient arrived with family.

SOURCE (PHYS):

The information was obtained from the patient and the parent.

PREHOSPITAL (PHYS):

No prehospital care was provided.

HISTORY OF PRESENT ILLNESS:

This patient is a 9 year old male who presents with a chief complaint of Cough. Provider
assessment time was 07/28/2024 20:14. I reviewed the vital signs and the nursing/
treatment notes and I agree with what is documented. Comments: cough
-[RLE@07/28/2024 20:17]. I agree with the chief complaint selected for this patient's
chart. The onset was 2 day(s) prior to arrival. There has been a cough which was described
as nonproductive. The shortness of breath was noted to be minimal. The patient developed

Acct #: 992470

Page 2 of 7

WALDROFF, BARRETT W

the symptoms spontaneously. There is a history of asthma. The patient has not traveled outside of the United States. The patient has not had contact with anyone who has traveled outside of the United States within the last 30 days. Travel inside the US within the last 30 days? No. There was associated vomiting and 1 episodes of vomiting in the last 24 hours. Oral intake has been decreased. Urinary output has been normal. There has been a subjective fever. Other History / Staff Note: post tussive emesis. has had several neb treatments at home -[RLE@07/28/2024 20:18].

ROS

RESPIRATORY: Positive for cough and shortness of breath. Negative for wheezing.

GI: Positive for vomiting.

I have reviewed all the other systems and they are negative.

IMMUNIZATIONS:

The patient's immunizations are up to date. Patient has not been vaccinated for COVID-19.

Tetanus vaccination status is up to date. Tetanus Vaccine Offered: NA.

PAST MEDICAL HISTORY (PHYS):

Medical: PULMONARY: History of asthma.

FAMILY HISTORY (PHYS):**SOCIAL HISTORY (PHYS):**

No significant Social History.

Habits: Patient is not exposed to second-hand smoke within the home. No reported alcohol use. No reported illegal drug use.

INITIAL VITALS AT PRESENTATION:

07/28/2024 20:14 Weight:54 lb(24 kg) Stated; Height:82 in(208 cm) BMI:5.66

07/28/2024

20:14 BP: 128/61 Arm Sitting (Automatic) MAP: 83.33 mmHG, Temp: 99.9 °F Oral, HR:

141 Sitting Awake (Automatic) , RR: 25, O2 Sat: 93% RA , Pain: 0/10 (Number scale)

PHYSICAL EXAMINATION

Constitutional: The patient was alert, playful, smiling and well-appearing. The patient was not ill-appearing and not irritable or fussy.

Neck: The neck does not have meningeal signs. Negative for anterior and posterior cervical adenopathy.

Eyes: Negative for discharge and redness.

ENT: The airway was patent. Right tympanic membrane negative for redness, bulging, dullness, retraction and perforation. Left tympanic membrane negative for redness, bulging, dullness, retraction and perforation. The nose was negative for bleeding, discharge, injection and mucosal edema. Sinus exam was negative for tenderness. Oral membranes were moist. Negative for white plaques, exudate, redness and tonsillar hypertrophy.

Respiratory: The pulse oximeter reading was within a normal range. The lung sounds were clear, and breath sounds were equal bilaterally. Right lung negative for wheezes. Left lung negative for wheezes.

Chest: Negative for accessory muscle use and retractions.

CV: Tachycardia was present and the rhythm was regular. There was no systolic murmur or diastolic murmur.

GI: Palpation negative for hepatomegaly and splenomegaly. There was no abdominal

Acct #: 992470

Page 3 of 7

WALDROFF, BARRETT W

tenderness.

Skin: Skin turgor was normal. No rash was present.**Neurological:** The patient was alert. The patient was not agitated. Motor function appears normal for the age of the patient.**DIAGNOSTIC CONSIDERATIONS FOR COUGH:**

DIAGNOSTIC CONSIDERATIONS: Asthma, Bronchiolitis, Bronchitis, COVID -19, Pharyngitis, streptococcal, Pharyngitis, viral, Pneumonia and URI.

(I have considered the above as the potential cause of the patient's condition. I have based my consideration on a limited patient encounter, and my considerations may not be all-inclusive. History, physical examination, and/or diagnostic studies, in combination with medical judgment, have been used in determining the final diagnosis)

MDM:**Reviewed and Analyzed Data:** Information regarding the patient was obtained from the parent.**PROVIDER TREATMENT NOTES:****Additional Course/Treatment:** Child's Tachycardia likely due to several doses of albuterol prior to arrival as it has come back down. no respiratory distress and breathing normally -[RLE@07/28/2024 20:54].**ORDERS AND RESULTS:****Placed Orders:****CBC W DIFF** Placed at 07/28/2024 20:17, RLE, MD; Completed at 07/28/2024 20:58, McCord, S. , RN; Reviewed at 07/28/2024 21:12, RLE, MD; Resulted at 07/28/2024 20:58, ; R. visit for the same problem. Patient had no recent surgery. Patient ID Band: The patient's ID
band was applied.

INITIAL VITALS AT PRESENTATION:

07/28/2024 20:14 Weight: 54 lb(24 kg) Stated; Height: 82 in(208 cm) BMI: 5.66

07/28/2024

20:14 BP: 128/61 Arm Sitting (Automatic) MAP: 83.33 mmHG, Temp: 99.9 °F Oral, HR:
141 Sitting Awake (Automatic), RR: 25, O2 Sat: 93% RA, Pain: 0/10 (Number scale)

GENERAL INFORMATION:

The patient is a full code.

IMMUNIZATIONS:

The patient's immunizations are up to date. Patient has not been vaccinated for COVID-19.
Tetanus vaccination status is up to date. Tetanus Vaccine Offered: NA.

TRIAGE ASSESSMENT:

Chief complaint: Cough

Acct #: 992470

Page 2 of 5

WALDROFF, BARRETT W

PAST MEDICAL/SURGICAL HX:

Medical: PULMONARY: History of asthma.

SOCIAL HISTORY:

No significant Social History.

Habits: Patient is not exposed to second-hand smoke within the home. No reported history of alcohol use. No reported illegal drug use.

FUNCTIONAL/SAFETY:

Abuse screening: There is no evidence of abuse/neglect.

Domestic violence screening: The patient reports feeling safe in his/her current environment. The patient denies being bullied.

Functional screening: The patient is developmentally age appropriate.

TRIAGE DISPOSITION:

Room #: EX 4 and Time to room: 07/28/2024 20:14.

ASSESSMENT

Triage performed with Assessment

SOURCE:

The information was obtained from the patient.

GENERAL ASSESSMENT:

07/28/2024 20:14.

Constitutional: The patient was in severe distress.

Psychosocial: Attentive and appropriate.

Speech: The patient's speech was coherent.

Skin: The skin was warm and dry. Skin color was normal. Skin turgor was normal. Skin Integrity: Intact.

Mental Status: The patient was oriented to person, place and time.

Deficits: The patient has no hearing deficit(s). The patient has no vision deficit(s). The patient has no sensory/motor deficits. The patient has no mental deficits.

FOCUSED ASSESSMENT:

Chief complaint: Cough

Timing: The onset / occurrence was 2 day(s) ago.

Quality: There has been a cough which was described as nonproductive.

Severity: The shortness of breath was noted to be moderate. The cough was described as moderate.

Context: There is a previous history of asthma.

Associated Symptoms: There was associated fever and 1 episodes of vomiting in the last 24 hours. There has been a fever of 99.9 ° T max.

Other history/Staff note: Note: States history of asthma, has a cough which has not responded to multiple breathing treatments. Had albuterol last at 0900AM and Duoneb at 1915 and prednisone 4mg PO. -[SM@07/28/2024 20:17].

SEPSIS SCREENING:

Pediatric Sepsis Screening Does the patient present with concern for infection and/or temperature or abnormality in the last 4 hours? No.

ACUITY:

3 (Urgent).

Acct #: 992470

CHARGES

1. The undersigned has been informed of the emergency treatment considered necessary for the above named patient and that treatment and procedures will be performed by physicians, members of house staff and employees of the hospital. Authorization is hereby granted for such treatment and procedures. The undersigned has read the above authorization and understands the same and certifies that no guarantee or assurance has been made as to the results that may be obtained.

2. The undersigned agrees to pay for services rendered by Hospital upon release of patient.

3. I/we hereby assign any hospital benefits, sick benefits, injury benefits due to a liability of a third party, payable by any party, for the above patient, to Hospital unless I pay the account in full upon release of patient.

4. I/we hereby authorize the "Administrator of Hospital" to furnish from its records any information requested by the before mentioned insurance companies in connection with the above assignment. I do hereby appoint the "Controller" of Hospital as my lawful attorney to endorse for me any checks made payable to me for benefits or claims collected under the above assignment and to apply any credit balance to any other account I may owe said hospital.
