VISIT TYPE: Office Visit New

CHIEF COMPLAINT: N/V/D

HISTORY OF PRESENT ILLNESS: Mrs. Hemmings is a 52 yo female here today for N/V/D for the past 1 week. She has a history of salmonella in the past with similar symptoms. She does eat a lot of chicken. Associated with lower abdominal cramping/burning intermittently. She has vomiting and diarrhea any time she eats or drinks anything. She is still passing gas. She is unable to take her medications because she vomits afterwards. All she has been able to keep down is a few sips of water. Denies fever, recent travel, or sick contacts except for her husband and her daughter both have a rare eye infection caused by Nocardia. Denies urinary symptoms or dizziness. She called her PCP Dr. Kathy Lindsay but they were not able to see her. They advised her to go to the ER, but she really didn't want to do that.
