Date: 01/13/23

PATIENT: BULLARD, ROY **DOB:** 10/10/1960 **Gender:** MALE **MRN:** 4871 **AGE:** 62 Years

VISIT TYPE: Office Visit Established

CHIEF COMPLAINT: Travel Consult

HISTORY OF PRESENT ILLNESS: Mr. Bullard presents to the clinic for a travel consultation. He will be traveling to Panama, Panama City, Chiriqui and Cieneguta for medical/dental work. He plans to travel on March 4, 2023 and return March 11, 2023. Patient is UTD with all vaccines excluding Tdap and Typhoid which is recommended to be UTD on according to CDC travel guidelines. Patient agrees to have Typhoid and Tdap vaccines. The cities the patient listed are not indicated for Malaria prophylaxis, but do border areas very closely that do recommend Malaria prophylaxis. Mr. Bullard would like to be prescribed Malarone for Malaria prevention. He states he has taken this medication on different occasions when traveling and states he did not have any complications or side effects to this medication. He states he will stay in Urban areas at a hotel with air conditioning.

ALLERGIES: Penicillins

MEDICATIONS:
