7461 East Dr STE 102  
Montgomery AL, 36117-8092  
(334) 244-3281

**Date:** 10/03/22

**PATIENT:** KURSUN, OLCAY    **DOB:** 04/24/1976    **Gender:** MALE    **MRN:** 4900    **AGE:** 46 Years

**VISIT TYPE:** Office Visit Established

**CHIEF COMPLAINT:** Sores to both sides of mouth

**HISTORY OF PRESENT ILLNESS:** Mr. Kursun is a 46 yo male here today for sores to both sides of his mouth that have been present for several days. He reports increased cavities at the dentist recently and having a taste in his mouth that isn't right.

He recently shaved his beard after letting it grow out longer than he normally does. He has had redness and shave bumps ever since which is going on 3 weeks now. He also has the same spots on his chest (which he does not shave).

He is concerned about H. Pylori as his wife was diagnosed with it last year. He denies symptoms of GERD or epigastric abdominal pain, but was told by a provider that he could possibly have it also and he has been concerned about it.

**VITALS:** BP: 122/74    **Site:** LEFT ARM    **Position:** SITTING    **Pulse:** 76;    **Temp:** 97.6;    **Resp:** 15;    **Ht:** 72 in.;    **Wt:** 192.8 lbs.;  
**BMI:** 26.14;    **Pulse Oximetry:** 98%

**ALLERGIES:** No Known Drug Allergies

**PAST MEDICAL HISTORY:** Denies

**PAST SURGICAL HISTORY:** Denies

**SOCIAL HISTORY:** Denies tobacco, ETOH, recreational drug abuse.
