ASSESSMENT:

Z00.00 - Encounter for general adult medical examination without abnormal findings (PRIMARY)
I10 - Essential (primary) hypertension

PLAN:

We had a discussion about his BP being out of control and that he is going to have a stroke if it remains that elevated. He states he is on hydralazine twice daily but he did not take it this morning. His PCP is Dr. Fisher. He states even when he takes his BP medicine that the lowest his BP gets is in the 170s systolically. He reports only being on hydralazine in the past. He was given ER precautions. His immunizations are not UTD per the form requirements. Recommended he follow up with his PCP. Gave him a refund for his physical as I can not sign it under these conditions. I told him if he took his BP meds that he could reschedule his appt with our office. He verbalized understanding.
