**AUTHORIZATION TO OBTAIN/RELEASE MEDICAL INFORMATION****Patient Information**

Name: GRAY Devonna Maria Date of Birth: 3/25/1961  
Last First Middle  
 Address: 5621 Calman Dr. # C Cell Phone: (518) 364-4394  
 City: Montgomery State: AL Zip: 36116 Email: Devonna.gray1030@gmail.com

Please select one of the following:

- ☐ Release information FROM Auburn University Medical Clinic to an outside facility/clinic/person  
☒ Obtain information from outside facility/clinic/person TO Auburn University Medical Clinic

Purpose of Request:

- ☐ New Patient Request ☐ Legal ☐ Personal ☐ Transfer out ☒ Coordination of Care

**Outside Clinic/Facility Information**

Name/ Facility: Baptist Infusion Center Phone: (334) 747-4451  
 Address: \_\_\_\_\_ Fax: (334) 717-8141  
 City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Please select one of the following:

- ☒ Fax Records ☐ Mail Records ☐ Hold Records for Patient Pickup

Information Type(s):

- ☐ Immunizations ONLY: please specify (if all, put ALL) \_\_\_\_\_

Date Range of Records Request 8/1/21 to 9/10/21

- ☒ Clinic Notes  
☒ Lab Reports  
☒ Radiology Report/ CD (please note there is a \$16 charge for CD picked up from AU Med Clinic)  
☐ Other: please specify \_\_\_\_\_

There is a fee of \$1.00 per page for the first 25 pages and \$.50 per page for each additional page after 25 for any records picked up by the patient from the AU Medical Clinic.

There is no fee to send records from the AU Medical Clinic to another clinic/physician.  
 PLEASE ALLOW AUMC RECORDS DEPARTMENT 3 BUSINESS DAYS TO COMPLETE YOUR REQUEST

AUMC does not provide copies of records received from another physician or institution. Please request these records directly from the original healthcare provider.

Signature (Patient's or Patient's Authorized Representative)

Witness Signature (REQUIRED)

Date

Date

This authorization is valid for 90 days unless you specify otherwise. You may revoke this authorization at any time by providing a written statement to the medical record department except to the extent that AUMC has already completed the action.

**Addendum**

**Attestations:** \*: I Scaglione, Lucia scribing for and in the presence of, Bobo, Michael Steven, MD , 8/26/2021 18:04:00, \*: Signed by Scaglione, Lucia , Scribe, 8/26/2021 18:04:00 , \*: I Bobo, Michael Steven, MD personally performed the services described in the documentation, reviewed the documentation recorded by the scribe in my presence and it accurately and completely records my words and actions.

This care is provided during an unprecedented national emergency due to the Novel Coronavirus (COVID-19). COVID-19 infections and transmission risks place heavy strains on healthcare resources. As this pandemic evolves, the Hospital and providers strive to respond fluidly, to remain operational, and to provide care relative to available resources and information. Outcomes are unpredictable and treatments are without well-defined guidelines. Further, the impact of COVID-19 on all aspects of emergency care, including the impact to patients seeking care for reasons other than COVID-19, is unavoidable during this national emergency.

**Radiology Reports (Last 24 Hours) - Range: 08/25/2021 07:00 - 08/26/2021 18:55**

Reports Found: 1

**Chest 2 View** Exam Dt/Tm: 08/26/2021 16:24

FINDINGS: Lungs are clear. Heart size is normal. Osseous structures are unremarkable.

IMPRESSION: 1. Normal 2-view chest

, reviewed radiologist's report.

**Rationale:** signed out to me by the previous physician as a 60-year-old female with past medical history significant for hypertension who presented with some anterior chest pain and myalgias. Tested positive for Covid yesterday. Has been treated and feels better at this point. She states her chest pain is gone. She states she is just feeling poorly overall. Vital signs have remained stable. She was never tachycardic or hypoxic and is breathing comfortably. She was febrile and hypertensive on arrival but this has resolved. Labs are without abnormality. Low heart score. I went in to talk to her and she feels comfortable to go home. She understands that with Covid and she can worsen at any point and to return immediately for any worsening symptoms or failure to improve. She did request that I refill her hydrochlorothiazide as she has not been able to get it recently. Dr. Bobo prescribed Zofran and Robaxin for her..

**Impression and Plan****Diagnosis**

COVID-19 (ICD10-CM U07.1, Discharge, Medical)  
 Acute febrile illness (ICD10-CM R50.9, Discharge, Medical)  
 Chest pain (ICD10-CM R07.9, Discharge, Medical)

**Plan**

Condition: Stable.  
 Disposition: Medically cleared, Discharged: Time 8/26/2021 18:56:00, to home.  
 Certified medical emergency: Yes.  
 Discharge vital signs review:

Patient was given the following educational materials: Quarantine for COVID-19 (Custom).

Follow up with: Your primary care provider/family physician Within 1 to 2 days DISCHARGE INSTRUCTIONS

Even though you have been discharged from the Emergency Department, there are several things that you should do to ensure that you receive proper care:

1. DO READ your discharge instructions as these contain important information concerning your medical care.
2. If medication has been prescribed for your condition, fill the prescription as soon as possible and follow the directions on the medication.
3. RETURN AT ONCE TO THE EMERGENCY DEPARTMENT if you have any problems or concerns. These include but are not limited to fever, worsening pain(belly, chest, head, etc...), worsening shortness of breath, uncontrollable bleeding, inability to tolerate food and water, or any condition that makes you question your well-being. Also, if your symptoms do not improve in the next 12-24 hours, return to the ER or seek medical care immediately.
4. Be sure to follow up with your regular physician or specialist as instructed at discharge as this is the best way to ensure that you receive the very best of care. If you do not have a primary care physician, please contact a physician group below and make an appointment:
  - Baptist Family Medicine clinic - (334)-273-4444
  - Medical Outreach Ministries - (334)-281-8008
  - Montgomery Family Medicine Program - (334)-613-3680
5. Please visit GoodRx.com for coupons regarding your prescriptions. It is a free service for you to use and can help reduce the cost of your medication.

We would like to thank you for coming today and our hope is that we served you and your family well during your stay

We would like to thank you for coming today and our hope is that we served you and your family well during your stay.

Counseled: Patient, Regarding diagnosis, Regarding diagnostic results, Regarding treatment plan, Patient indicated understanding of instructions.

Emergency Room Report

GRAY, DEVONNA - E000610504

\* Final Report \*

COVID-pneumonia

**Plan**

**Condition:** Stable.

**Disposition:** Patient care transitioned to: Time: 9/1/2021 20:00:00, Witcher, Kristi C, MD.

**Certified medical emergency:** Yes.

**BH PQRS**

**Tobacco use:** Patients is a: Tobacco non-user.

**Addendum**

**Attestations:** \*: I Rios, Alexandra C scribing for and in the presence of, Hassani, Brian, MD , 9/1/2021 18:33:00, \*: Signed by Rios, Alexandra C , Scribe, 9/1/2021 18:33:00 , \*: I Hassani, Brian, MD personally performed the services described in the documentation, reviewed the documentation recorded by the scribe in my presence and it accurately and completely records my words and actions.

**Signature Line**

## Addendum \*ED

Patient: GRAY, DEVONNA MRN: E000610504 FIN: E2124402583  
 Age: 60 years Sex: Female DOB: 3/25/1961  
 Associated Diagnoses: None  
 Author: Witcher, Kristi C, MD

## Basic Information

**Addendum:** Time of addendum:: 9/1/2021 20:00:00 , Assumed care from: Hassani, Brian, MD, Time 9/1/2021 20:00:00, Pertinent history:

60 yr old F presents to the ED due to a low O2 saturation. Pt had recent + COVID test. Waiting labs/radiology results.

## Medical Decision Making

**Documents reviewed:** Emergency department nurses' notes.

**Electrocardiogram:** Time 9/1/2021 21:15:00, rate 75, normal sinus rhythm, No ST-T changes, no ectopy, normal PR and QRS intervals, EP Interp, NO STEMI.

## Emergency Room Report

GRAY, DEVONNA - E000610504

\* Final Report \*

**Radiology results:** Radiology results (ST)**Radiology Reports (Last 24 Hours) - Range: 08/31/2021 07:00 - 09/01/2021 22:11**

Reports Found: 2

**Angio Chest w or w/o + w contrast** Exam Dt/Tm: 09/01/2021 21:34

FINDINGS: No pulmonary embolus is identified. The thoracic aorta appears normal. Heart size moderately enlarged without pericardial effusion. No pathologic adenopathy in the chest. There are multifocal airspace opacities bilaterally compatible with COVID pneumonia. Airways appear patent. No pleural effusion. No aggressive osseous lesion.

IMPRESSION: No PE. COVID pneumonia

**Chest Portable** Exam Dt/Tm: 09/01/2021 16:56

IMPRESSION: Multifocal bilateral pneumonia

, reviewed radiologist's report.

**Reexamination/ Reevaluation**

Time: 9/1/2021 22:07:00 .

Notes: Updated the patient on lab and radiology results; Also, discussed further plan of care and the patient verbally agreed and understood. All questions answered at this time.

**Impression and Plan****Diagnosis**

COVID 19

**Plan****Condition:** Stable.**Disposition:** Medically cleared, Discharged: Time 9/1/2021 22:11:00, to home.**Certified medical emergency:** Yes.**Discharge vital signs review:****Vital Signs (Latest Results)**

**\* Final Report \*****Lower Extremity Pain-Swelling \*ED**

Patient: **GRAY, DEVONNA** MRN: **E000610504** FIN: **E2125301846**  
Age: **60 years** Sex: **Female** DOB: **3/25/1961**  
Associated Diagnoses: **Deep vein thrombosis (DVT) of popliteal vein of left lower extremity**  
Author: **Berlin, Alecia C, NP**

**Basic Information**

**Time seen:** Date and time 9/10/2021 21:24:00.

**History source:** Patient.

**Arrival mode:** Private vehicle.

**History limitation:** None.

**Additional information:** ED Chief Complaint

9/10/2021 18:47 CDT ED Chief Complaint Patient sent from PCP for US of left lower extremity for DVT.  
Denies chest pain or shortness of breath. .

**History of Present Illness**

The patient presents with lower extremity pain and lower extremity swelling. The onset was 2 days ago. The course/duration of symptoms is constant. Type of injury: none. Location: Left calf. The character of symptoms is pain and swelling. The degree at present is moderate. There are exacerbating factors including movement, weight bearing and walking. The relieving factor is none. Risk factors consist of deep vein thrombosis. Prior episodes: none. Therapy today: see nurses notes. Associated symptoms: shortness of breath, denies fever, denies chills and denies chest pain. Patient diagnosed with DVT in her left lower extremity today. She is complaining of mild shortness of breath but denies chest pain. She has no history of previous DVTs. She had COVID approximately 3 weeks ago.

**Review of Systems**

**Constitutional symptoms:** Negative except as documented in HPI.

**Skin symptoms:** Negative except as documented in HPI.

**Respiratory symptoms:** Negative except as documented in HPI.

**Cardiovascular symptoms:** Negative except as documented in HPI.

**Gastrointestinal symptoms:** Negative except as documented in HPI.

**Genitourinary symptoms:** Negative except as documented in HPI.

**Musculoskeletal symptoms:** Negative except as documented in HPI.

**Neurologic symptoms:** Negative except as documented in HPI.

**Radiology results:** Radiology results (ST)**Radiology Reports (Last 24 Hours) - Range: 09/09/2021 07:00 - 09/10/2021 22:49**

Reports Found: 1

**Angio Chest w or w/o + w contrast** Exam Dt/Tm: 09/10/2021 22:04

**FINDINGS:** I do not see any pulmonary arterial filling defect to indicate PE. There are scattered bilateral subpleural areas of consolidation likely COVID pneumonia. Pneumothorax or effusion. No suspicious pulmonary nodule. No endobronchial lesion or suspicious mediastinal adenopathy. Limited views lower neck and axilla unremarkable. Within the upper abdomen, no significant abnormality.

**IMPRESSION:** No PE. Scattered areas of bilateral predominantly subpleural consolidation worrisome for COVID pneumonia. No associated effusion or pneumothorax

**Notes:** Allergies, home medications, past medical & surgical history, family history & social history were entered by nurse and/or scribe & reviewed during patient's visit & in the chart by the nurse practitioner.

**Reexamination/ Reevaluation**

Time: 9/10/2021 22:50:00.

**Notes:** Results and plan of care discussed in depth with patient. Opportunity for questions provided. Patient verbalized understanding and agreed with plan.

**Impression and Plan****Diagnosis**
