PATIENT: WALKER, DAVID **DOB:** 05/28/1960 **Gender:** MALE **MRN:** 5106 **AGE:** 62 Years

VISIT TYPE: Office Visit New

CHIEF COMPLAINT: Medication refills

HISTORY OF PRESENT ILLNESS: Mr. Walker is a 62 yo male with a PMH of T2DM, HTN, and Chronic neck/back pain. He is in the process of changing PCPs. He has an appt to establish care with Rebecca Buckalew, NP in March. Until then he would like to request refills on his medications of protonix and start trulicity. He has been on ozempic for his diabetes but has not been able to get it filled in the last 3 weeks because it is on backorder. He would like to switch to trulicity in hopes he can get his diabetes back under control. He states he checks his blood sugars before meals but isn't consistent with that. He reports his blood sugar this morning after eating fruit was 350. He does not remember what his last Hgb A1C was. He thinks he was seen in October by his former PCP. He has no complaints today.

VITALS: BP: 137/95 **Site:** RIGHT ARM **Position:** SITTING **Pulse:** 91; **Temp:** 97; **Resp:** 16; **Ht:** 67 in.; **Wt:** 180.5 lbs.;
BMI: 28.27; **Pulse Oximetry:** 97%
