Prepared for LINDSEY BARTON

A recent review of pharmacy claims has identified the following drug therapy opportunities for your patient.

Bottom line: Non-adherent to antihypertensive medication

Action requested: Evaluate drug refill patterns

The Adherence hypertension program identifies patients whose proportion of days covered (PDC) is less than 80%. This patient's PDC is 36% over the previous 365 days. Common reasons for non-adherence may include: side effects, affordability, or changes in the drug regimen. Please provide a new prescription if the regimen has changed, and/or discuss the importance of adherence and ways to address barriers with your patient.

Medication History: For a complete listing of the pharmacy claims associated with this drug therapy opportunity, please see Drug Therapy Opportunity **Adh HTN** on the Supplemental Information page(s).
