Patient Must Complete for Positive Only
I understand that I have received a positive TB Skin test, and that further evaluation is required to reach a conclusion, determine the cause, nature and treatment (if any) for this POSITIVE result. I agree to follow the Center for Disease Control protocol following this positive TB test by proceeding immediately with a Chest X-Ray and or QFT (Blood TB Test) to confirm active or latent TB. I understand that active TUBERCULOSIS is treatable and is very contagious and that I may need medical care to treat an active infection. I, therefore, accept my responsibility to seek medical attention. I acknowledge and understand that the results of this test will be reported to the Alabama Department of Public Health for further investigation, and I will be contacted by them.
