7461 East Dr STE 102
Montgomery AL, 36117-8092
(334) 244-3281

Date: 01/17/23

PATIENT: CLARK, TAMMY **DOB:** 01/08/1970 **Gender:** FEMALE **MRN:** 5267 **AGE:** 53 Years

VISIT TYPE: Office Visit Established

CHIEF COMPLAINT: Travel Consult

HISTORY OF PRESENT ILLNESS: Ms. Clark presents to the clinic for a travel consultation. She will be traveling to Panama, Panama City, Chiriqui and Cieneguta for medical/dental work. She plans to travel on March 4, 2023 and return March 11, 2023. Patient is UTD with all vaccines excluding Tdap, MMR x 1, Polio, and Typhoid which is recommended to be UTD on according to CDC travel guidelines. Patient agrees to have Typhoid and other mentioned vaccines. Discussed CDC recommends being UTD on her flu vaccine and Shingles vaccines as well. She reports she will get her Shingles vaccine at her pharmacy and will consider the flu vaccine. The cities the patient listed are not indicated for Malaria prophylaxis, but do border areas very closely that do recommend Malaria prophylaxis. Ms. Clark would like to be prescribed Malarone for Malaria prevention. She states she has taken this medication on different occasions when traveling and states she did not have any complications or side effects to this medication. She states she will stay in Urban areas at a hotel with air conditioning.
