ASSESSMENT:

E78.5 - Hyperlipidemia, unspecified (PRIMARY)
E55.9 - Vitamin D deficiency, unspecified

PLAN:

We discussed her most recent labs to include high cholesterol and low vitamin D levels. Rx for vitamin D sent to her pharmacy the other day. She plans to pick it up. For cholesterol, recommended increase exercise, lose about 10 lbs, and decrease foods high in saturated fats. Recheck vitamin D and FLP in 3 months. A written copy of her labs were provided along with instructions for each. She verbalized understanding.
