07/23/2025

Appointment Provider: Ginger N McDaniel, CRNP

Reason for Appointment

1. 256-227-3918...NP: Colitis

History of Present Illness

Introduction:

-
Patient's Location: Home Provider's Location: Home Duration: 30 minutes This service was initiated by the patient and provided through a telehealth platform using real time, interactive video and audio capabilities for both the provider and the patient. Patient was home during telehealth visit. Patient consent was obtained.

Kendra Griggs is here today referred for colitis. She presented to the emergency room at Baptist East Hospital on April 5, 2025 with bloody diarrhea and cramping abdominal pain. She reports that she had a CT that revealed colitis and she was treated with antibiotics. Since then her abdominal pain is resolved. She still having bowel irregularity and skipping 2 to 3 days without a bowel movement. She does see intermittent blood because she has a history of hemorrhoids and does have an intermittent anal fissure. Sometimes the bowel movements are painful. She has a mother who has colon polyps. She has no family history of inflammatory bowel disease. She is here for further evaluation.

Depression Screening:

- Intervention
Depression Screening Findings *Negative*
- PHQ-2 (2015 Edition)
Little interest or pleasure in doing things? *Not at all*
Feeling down, depressed, or hopeless? *Not at all*
Total Score 0

Wt: 155 lbs, Ht: 64 in, BMI: 26.6 Index, Wt-kg: 70.31 kg.

Assessments

1. Blood in stool - K92.1 (Primary)
2. Colitis - K52.9

1. Colitis/blood in the stool -we will attempt to get her records from Baptist East on April 5, 2025 including CT report. We will proceed with a colonoscopy and recommend blood work to check for inflammatory markers and check IBD for step markers. We will check a fecal calprotectin as well and make further recommendations after the above workup is complete.

Treatment

1. Colitis

LAB: CBC/D/Plt+ESR Wes+TSH+CRP+I (Ordered for 07/23/2025)
