All testing was conducted at Compass Laboratory Services located at 1910 Noncannah Blvd, Memphis, TN 38132. This assay is designed to detect organisms that are associated with infections. The test was developed and validated by Compass Laboratory Services as a lab developed test (LDT) and as such approval by the Food and Drug Administration (FDA) is not required. Treatment decisions are the responsibility of referring provider and should be made in conjunction with a physical assessment. All treatment guidelines shown are based upon FDA approved drug labels.
