DIAGNOSIS CODES

6-Feb-2026	13:59	+13342443396		+13345780217	p. 4
From: Destiny Oates	From Fax: (334) 578-0217	To:	To Fax: 3342443396	Page: 4 of 5	02/06/2026 7:57 AM
DATE	CODE	DESCRIPTION			
02/05/2026	H02.60	Xanthelasma of unspecified eye, unspecified eyelid			
02/05/2026	L82.1	Other seborrheic keratosis			
02/05/2026	L70.0	Acne vulgaris			
02/05/2026	L81.0	Postinflammatory hyperpigmentation			

PROBLEMS ADDRESSED AND TREATMENT

- Problems Addressed
- Xanthelasma vs other. Left lower eyelid margin. Recommend oculoplastic surgeon Dr. Viczanano for removal. Dr. Vic information given to patient.
 - Seborrheic keratosis (L82.1). Right temple. Reassurance, handout given.
 - Acne (L70.0). Face. Patient is taking Spironolactone 100mg BID with her OBGYN. Patient started this 2 months ago. Discussed with patient to continue Spironolactone. On exam today there is mostly PIPH and acne scarring, few active acne lesions. Stopping salicylic acid, recommend Cerave cleanser and moisturizer. Prescribed Clindamycin lotion QAM and Tretinoin 0.025 cream QHS with Cerave 02/05/26.
- Treatment Plans
- I, Kelli Riddle, PA-C, asked and performed questions for the HPI today. My scribe entered patient's answers to my questions. Kelli Riddle, PA-C, and Mark Herron, MD have reviewed the chart.
 - Encouraged use of sunprotective clothing.
 - Sunscreen encouraged as part of management for photodamage.
 - I recommended sunscreens and sun avoidance.
 - Handout was given to the patient.
 - I discussed treatment with patient.
 - I reviewed in detail the risks and side effects of today's treatment. The patient is well informed and has good understanding of the options.
 - Return on as needed basis.
